

TASS strategically employs various social media platforms to actively engage with the sailing community and disseminate information regarding sailing and social activities sponsored by our organization. While our Facebook page is open-source, membership entails a request process and adherence to general guidelines.

Acknowledging that the TASS Facebook page and website do not serve as platforms for endorsing organizations unrelated to TASS is imperative. Promoting or broadcasting items for sale, swapping, or free is prohibited. TASS members are encouraged to utilize their personal Facebook pages for such purposes. Non-compliant postings will be promptly deleted in accordance with TASS rules.

Furthermore, the creation of new Facebook pages using variations of the TASS name is strongly discouraged. This practice not only dilutes the brand of our 40-year-old successful organization but also creates confusion regarding our mission and intent. Former TASS members engaged in new activities are urged to represent their endeavors without utilizing the TASS name or its derivatives.

The establishment of closed groups with names like "TASS XXX" may unintentionally impede communication with our organization. TASS, a thriving and growing entity, will proudly showcase businesses supporting us through sponsorship on our website or Facebook page.

We sincerely appreciate your understanding and cooperation in upholding the clarity and integrity of the TASS brand.
